

New Product Information

Esoteric® is proud to introduce a new product range enabling ownership for a wider audience of audiophiles. Without sacrificing quality, the Esoteric “10 Series” provides proprietary technology and premium performance in a new simple design and system implementation.

【Main Features】

SA-10

Super Audio CD/CD Player

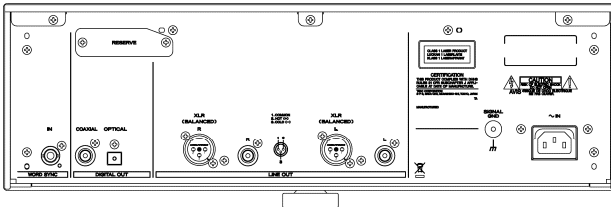

- Esoteric® proprietary “VOSP” transport and drive mechanism. (VOSP = Vertically aligned optical stability platform).
- Premium quality, 2 channel dedicated analog audio outputs (RCA x1 / XLR x1)
- Dual mono 24-bit/192kHz digital to analog converter (Cirrus Logic CS4398 x 2)
- Dual mono analog audio circuit for superior channel separation.
- Word sync function (Word sync input/BNC terminal x 1)
- High speed power supply capability backed by a large toroidal power transformer.
- Highly rigid chassis construction with cut aluminum top (T: 5mm) and side panels (T: 4mm) for superior anti-resonance and anti-vibration properties.
- Slim remote control with illuminated keys for easier operation in low light or no light environments.
- i.LINK digital audio interface (optional).

AI-10

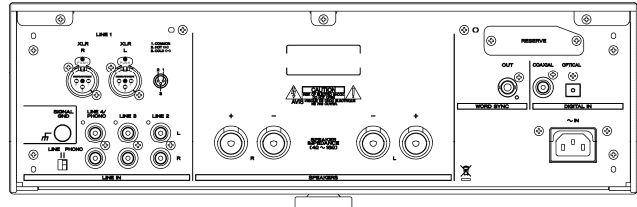

Digital Integrated Amplifier and Master Clock Sync Generator

- Digital integrated power amplifier dedicated for 2 channel audio applications.
- Highly efficient power handling capability (150W+150W8 Ohm, 200W+200W/4Ohm)
- 192kHz/176.4kHz high sampling analog to digital conversion for analog input signals
- Digital input terminals for fully digital audio solutions (coaxial x1, optical x1)
- Unbalanced (RCA x3) and Balanced (XLR x1) input
- Rich, high speed, high efficiency power supply capability backed by a large toroidal power transformer.
- Word sync output function (Word out BNC terminal x 1)
- WBT speaker connection terminals for secure and high quality speaker cable connections
- Phono (MM) / Line convertible input x1.
- Highly rigid chassis construction with cut aluminum top (T: 5mm) and side panels (T: 4mm) for superior anti-resonance and anti-vibration properties.
- Slim remote control with illuminated keys including player control functions.
- i.LINK digital audio interface (optional).
